SECTION I – Carding Criteria

Program Description:

The Biathlon Canada carding program is funded by Sport Canada through the Athlete Assistance Program (AAP). The purpose of the carding program is to provide support to athletes that have achieved the senior international criteria or who demonstrate the potential to achieve international success. The program contributes to improving Canadian performances at major international sporting events such as the Olympic Games, Paralympic Games, and World Championships.

The financial assistance provided to identified Canadian athletes comes in the form of a monthly living and training allowance and, where applicable, post secondary school tuition support. This assistance helps athletes with their training and competition needs, as well as assisting in preparing for a post-sport career. This assistance goes directly to the athletes.

An athlete's carding status is subject to the obligations and commitments as detailed in Biathlon Canada's Carded Athlete Agreement and Sport Canada's Athlete Assistance Program Policies, Procedures and Guidelines.

Biathlon Canada is eligible to receive eleven (11) senior cards or \$198,000 (subject to periodic review by Sport Canada). If fewer than eleven athletes meet the Senior Card criteria the remaining value of cards will be dispersed as Development Cards.

Priority for nomination of athletes to Sport Canada for AAP cards:

The Biathlon Canada's High Performance Working Group (consisting of the High Performance Director, National Team Head Coach, and National Team Coach) is responsible for nominating athletes for carding to Sport Canada. Sport Canada is responsible to approve nominations in accordance with the AAP policies.

1. Athletes meeting the Senior A International Criteria (SR1/SR2)-Tier 1
2. Athletes meeting the Injury/Illness provision who are currently on the Senior A Team
