SECTION I – INTRODUCTION

Program Description:

The Athlete Assistance Program (AAP), funded by Sport Canada, ensures athletes identified with potential to be top-16 in the world are afforded the necessary resources to achieve international success. The program contributes to improving Canadian performances at major international sporting events such as the Olympic Games, Paralympic Games, and World Championships.

The financial assistance provided to identified Canadian athletes comes in the form of a monthly living and training allowance and, where applicable, post-secondary school tuition support. This assistance helps athletes with their training and competition needs, as well as assisting in preparing for a post-sport career. This assistance is provided directly to the athletes.

An athlete's carding status is subject to the obligations and commitments as detailed in Biathlon Canada's Athlete Agreement and Sport Canada's [Athlete Assistance Program Policies, Procedures and Guidelines](#).

In 2019-2020, Biathlon Canada is eligible to receive eight (8) Senior Cards or \$169,440 (subject to periodic review by Sport Canada). If fewer than eight athletes meet the Senior Card criteria the remaining value of cards will be allocated as Development Cards.

Types of Cards:

There are four main types of cards. These are introduced below and the eligibility requirements are explained further in Section II. Typically, athletes will be nominated to receive a card for twelve months from May 1, 2019 to April 30, 2020 (the Carding Cycle). Cards are normally twelve months per athlete; however, if fewer than twelve months of funding remains when allocating cards, the last eligible athlete will receive a partial card provided that at least four months of funding remain.

1. SR 1 and SR 2: See "Senior International Criteria" (Tier 1). This card has a value of \$1,765.00/month during the Carding Cycle.

2. **SR**: See “Senior National Criteria” (Tier 2 and 3). This card has a value of \$1,765.00/month during the Carding Cycle.

3. **C1**: See “Senior National Criteria” (Tier 2 and 3). This card has a value of \$1,060.00/month during the Carding Cycle.

4. **D**: See “National Criteria” (Tier 4), “U24 National Development Criteria” (Tier 5), and “High Performance Working Group Criteria” (Tier 6). This card has a value of \$1,060.00/month during the Carding Cycle.

Process for nomination of athletes to Sport Canada for AAP cards:

Biathlon Canada’s High-Performance Working Group (HPWG) (consisting of a designated Board Member and the General Manager) is responsible for nominating athletes for carding to Sport Canada. Sport Canada is responsible for approving nominations in accordance with the AAP policies.

Carding Procedure

By April 15, 2019:

- A list will be established based on the priorities set out in this document.
- An athlete carding provisional nominations list based on the number of cards available will be prepared.
- The athlete carding provisional nomination list will be published by Biathlon Canada on the Biathlon Canada website.
- Upon publication, athletes will have seven (7) days to notify Biathlon Canada if there have been any errors or omissions in the calculation of rankings.
- After this seven (7) day period, the athlete carding final nomination list will be presented to Sport Canada for review and approval.

In order for an athlete to receive funding through the AAP carding program, the athlete must sign and be in compliance with their Athlete/NSO Agreement. Biathlon Canada will advise Sport Canada’s AAP officials when these conditions have been met. For reference, please find information on Sport Canada’s Athlete Assistance Program [here](#).

Development cards are intended to support the needs of younger athletes who clearly demonstrate the potential to achieve Senior International Card criteria but are not yet able to meet Senior National Card criteria. The Development Card can be achieved through the following sets of criteria and in the following priority order:

****Normally, an athlete previously carded at Senior levels (SR1, SR2, SR, C1, and SRinj) for more than two years cannot be nominated for a development card. Exceptions can be made to this principle as follows:**

- The time that a junior-aged athlete is carded at a senior level (SR1/SR2,SR,C1) will not be considered.
- The time that an athlete who is initially nominated for a development card but upgraded to a senior card (SR,C1) during the Carding Cycle due to Olympic Team selection will not be considered.

Tier 4: Development Carding Criteria (D)

a. To be eligible for a D Card nomination through the Tier 4 Development Carding Criteria, an athlete must meet either Priority 1 **or** Priority 2 specific to their age.

	Priority 1 D Card	Priority 2 D card

(If tied, ranked by next-best individual JWCH placing)

Tier 5: U24 Development Carding Criteria (D)

a. To be eligible for a D Card nomination through the Tier 5 Development Carding Criteria, an athlete must meet either Priority 1 **or** Priority 2 **or** Priority 3 specific to their age.

	Priority 1 D Card	Priority 2 D Card	Priority 3 D Card

Youth Criteria	WYCH: 1x top-3		

b. Determination of ranking within Tier 5:

If there are fewer remaining cards than athletes meeting Tier 5 criteria, athletes will be ranked accordingly

 - i. Athletes placing Top-60 at World Cup or Olympics or World Championship competitions
 - ii. Athletes placing Top-40 at IBU Cup competitions
 - iii. Athletes placing Top-30 at World Junior Championships
 - iv. Athletes with the next single best result from the IBU, OECH or WJ Championships until carding allocation if fulfilled.
- b. If there are fewer cards than athletes meeting any of the Tier 6 priorities, athletes will be ranked based on their best respective placing within each Tier 6 priority. Should additional ranking be required, the tied athletes' next best placing from the priority in which criteria was met will be used.

Injury Provision

Athletes who were carded in the previous year and were unable to meet the carding criteria strictly due to health-related reasons may be considered for re-nomination by Biathlon Canada High-Performance Working Group for the upcoming carding period if:

- a. The athlete has abided by the Injury provision requirements of the Biathlon Canada Athlete Contract, Section III.1 (i): *"In the case of an injury or illness which prohibits the Athlete from participating in a National Team activity, the athlete must send a signed certificate from a physician to the HPWG within eight (8) days following injury or sickness. The certificate should indicate the details of the problem and the prognosis. National Team athletes are expected to follow a recovery program as prescribed by the practitioner (physician or other), including following the training and recovery regime/strategy assigned by the coach;"*
- b. The athlete and their personal coach submit a written petition to the High-Performance Working Group, prior to the 15th April 2019. The petition must include the following:
 - i. A doctor's medical certificate indicating the date and nature of the injury with the prescribed rehabilitation program and an estimated recovery period. An

- indication that a full medical recovery will be possible within the next carding period. Biathlon Canada reserves the right to have a second medical opinion;
- ii. For the period during which the athlete is unable to fulfill the training and competition commitments which are part of the normal carded athlete's contract, the athlete undertakes in writing to train and/or rehabilitate under the supervision of Biathlon Canada at a level which minimizes risk to the athlete's personal health, and ensures an optimal return to full training and competition;
 - iii. The athlete signifies in writing his / her intention to return to full high-performance training and competition at the earliest date possible following the illness or injury;

The final decision on eligibility for carding nomination based on the injury provision clause rests with the High-Performance Working Group.

If there are fewer cards available than those who met the Injury Provision Criteria, athletes claiming Injury Provision will be ranked based on their ranking in the previous year's AAP nomination.

SECTION III - CARDING ELIGIBILITY

A. General Requirements

To be eligible for support through the AAP, an athlete must:

- Be a Canadian citizen or a permanent resident of Canada;
- Adhere to their athlete/NSO agreement requirements;

- Meet the carding criteria as a member of the Canadian Team at international events or in domestic events or events sanctioned by the NSO for his/her sport. Athletes are usually required to live and train in Canada. Assistance for athletes living and training outside Canada may be approved by Sport Canada, if justified by the NSO for academic or athletic reasons.

2. Athletes must comply with [Biathlon Canada's policies, procedures, and guidelines](#).

C. Performance Requirements

The Performance Requirement does not apply to athletes carded at SR1; such athletes must fulfill maintenance criteria detailed in section *Tier 1: Senior International Carding Criteria (SR1/SR2)*.

Years carded under an Injury/Illness provision do not count when totalling years of carding in the above situations.
