

BIATHLON CANADA PRECISION SHOOTING COMPETITION 2019

Email: info@biathloncanada.ca

What is it:

The 2019 Biathlon Canada Precision Shooting Competition is open to all members of Biathlon Canada and will provide an opportunity for you to compete against athletes from across the country while promoting the development of strong shooting skills.

Shooting regulations:

- You must be a member of Biathlon Canada in 2019-20 to participate - [Click here to register](#)
- You must complete all components of this competition in one shooting session.
- Shooting must be done on a 50m outdoor shooting range, except air rifle which is 10m.
- Each shot must be **single loaded**.
- Novice Air Rifle will use the cadet target, while all other categories will use model 151CP.
- One target will be used for every shot on the cadet targets and one for every 10 shots on the 151 CP target.
- If there is a crossfire on a target, please indicate which shot is a cross fire, otherwise there are to be 10 shots per target only.
- Targets received with more than 10 shots will have the highest valued shots discarded, as it is not fair to the person marking them to choose which shots count and which do not.
- Please score your targets, date when it took place and confirm that you have followed all the rules of the competition. Coaches will then verify scores and have a witness verify the scores as well.
- Please indicate whether each target is prone or standing.
- Due to the cost and time required to ship targets to Biathlon Canada and for Biathlon Canada to review each target we are now going to go on the honor system having coaches review, record and then have target sheets and scores verified by another individual. The individual verifying must be able to score sheets and provide us with their name and email address.
- You will be placed in the competition category that corresponds to the target submission, if there is a discrepancy between targets and category selected.

- In the event that there is a tie and those tied are the winners of the competition – both will be awarded prizes.
- Coaches must enter results in the Precision Shooting Competition Results Form each month (required form information includes information such as athletes names, their scores and who verified the target scores). The **Registration Forms only needs to be submitted once to register unless the participant is changing categories.**

Fees: There are no fees associated with this competition.

Prizes: All entries and scores will be listed on the Biathlon Canada website. The top scoring participant (cumulative overall) in each category will receive a prize. Points will be awarded based on monthly results and prizes will be awarded at the end of the series for top female, top male and most improved.

Categories:

- Novice AIR RIFLE (14 and under) – 10p at 10m distance (score out of 100)
- Junior Boys/Girls Using rests (14 and under) 20 P (Score out of 200)
